## PROFESSIONAL EXPERIENCE

- 1997-1998 I worked at Eleokosmos Ltd. for the sale of agricultural products and supplies and the provision of specialized agronomical and geotechnical information.
- 1998-Today I work at the Museum of Natural History with the main object of creating, filing, preserving and protecting the Museum's collections (stuffed specimens, samples of alcohol, bones, etc.) as well as their electronic recording in databases.

At the same time I work in the framework of research programs and studies related to my subject and in all the exhibition activities of the Museum of Natural History of Crete.

Specifically, I have participated in the following:

- "Spatial actions for the management and elevation of the natural and cultural heritage of mountainous areas of Southern Europe". TERRA - DIAS Region of Crete (1998 - 1999).

- Prefecture of Drama. Protection and management of the Rhodope Mountains – Formation of Natural History Museum. (1999 - 2001). Scientific manager M. Mylonas.
- «Conservation of *Gypaetus barbatus* in Greece». LIFE - NATURE European Commission (1998 - in progress).
- «Protection of threatened endemic species». ARCHI-MED Central and Eastern Mediterranean Space (1998 - 2002).
- "Design of exhibition spaces of Natural History Museum of Crete" INTEREG II Region of Crete (1999-2002) as a field researcher and laboratory technician.
- Intereg II. "South Aegean Crete Cyprus: Cooperation for the Environment and Development" (1999–2000). Scientific manager M. Mylonas.
- South East of Lassithi. 2000 "Organization and installation of Natural History Museum on the site of the Holy Monastery of Vidiani in the Lassithi Plateau".
- ALMA SA 2001. Organization and installation of Natural History Museum in Kolimbari, Chania.
- South East Lassithi. 2002 Natural Environment Assessment of the wider area of Kalamafka borough, Responsible Scientist Ch. Fasoulas.
- 2002 - 2003. Cooperation initiative of Natural History Museum of Crete and the Natural History Museum of YALE University.
- EPBET - GGET. 2004. Management and operation of artificial wetlands with emphasis on the management and monitoring of *Mauremys caspica* turtle populations.
- " Conservation Measures for *Falco eleonora* in Greece "Actions for the protection of *Falco eleonora* in Greece LIFE NATURE 2003". E.E (2005).
- "Elevation of the natural environment of the islands and islets of the South Aegean through the digitization of the collections and archives of the Museum of Natural History of Crete". ERDF 75% - National Resources 25% (2006).

At the same time I was working with the following:

- the collection of animals and material for study. At the same time I gained experience in describing the study stations.
- the breeding of animals and the creation of suitable conditions for their living and reproduction.
- the care and provision of first aid to poisoned and injured animals. Trapping micro-mammals to control their population and activities. Handling animals to obtain morphological and other data.
- the installation of photographic traps for the population census and control of the action range of small carnivores (wildcat, ferret, weasel).
- the processing of abomination of nocturnal predators for the extraction of the bones of micro-mammals and birds that are the prey of the above.
- the embalming of mammals and birds.
- the creation of dioramas as well as the selection, collection and installation of suitable materials for them.
- the guidance of visitors to the Museum's exhibition.

## **OTHER ACTIVITIES**

- I participated in beach cleaning and reforestation programs.
- Certificate of participation in the educational laboratory. "Application of Good Practices and Rules for the Protection of Cultural Heritage in case of seismic risk".
- Certificate of participation in the educational seminar "First Aid in the Wild Fauna and organization of a Volunteer group".
